Company Profile

Eco Pacific Pty. Ltd.: A fully Australian owned and operated company, Eco Pacific manufactures, sells and services eco-friendly gas ducted heaters and central evaporative coolers for the domestic markets. Based in Dandenong industrial area, the company offers excellent quality products with a back up of full service warranty.

Products: Eco Pacific started the business from January 2006 through buying business off former Stadt Industries which remained in the market for 25 years and has updated the product lines with new generation controls. Now, the Pluto gas ducted heater, with an energy star rating of up to 3.5 stars, comes with an electronic spark single try ignition system that has been successfully running in the Victorian domestic market for many years. More than 55,000 Pluto units are currently operating throughout the market. Similarly, our Aqua Breeze Central Evaporative Cooler, a very well thought out installation and service friendly product comes with a new generation digital 5V slim line wall controller. The cooler is equipped with user friendly features such as: auto pre-wash and post-wash of the pads, auto dumping of stale water, 10 speed fan, and three timer functions, and has been successfully running in the Victorian market for the last 10 years. More than 55,000 Aqua Breeze Coolers currently running in the market is a proven testimony to the quality of this high class product. The company is offering SGUs with supply and installation of fully certified high efficiency Solar Photovoltaic mono-crystalline Silicone panels for domestic applications.

Management: Eco Pacific is managed by highly qualified and experienced personnel who are fully focussed on customer satisfaction and strive for a 24 hr. turn around time for any service call. The Company is currently steered by Dr. Jai Kaudinya who is equipped with very high credentials, has world-wide exposure with more than 25 years diverse experience in research, design of products; and technology and business development in domestic and commercial heating and cooling markets. All Eco Pacific products go through strict quality control measures on the assembly lines before being warehoused, and the service in the field is done by well qualified and factory trained servicemen.

We assure you that while using our products you will be dealing with well qualified and pleasant personnel at every stage with after sales professional support, be it to the Builders, Retailers, Contractors, or Installers, **all with peace of mind to the end users.**
